

Support Arts Education

INVEST IN CREATIVITY. EMPOWER STUDENTS. STRENGTHEN COMMUNITIES.

Social Movement Contemporary Dance Theater (SMCDT) provides innovative arts education programs that use dance and creative movement to inspire learning, build confidence, and create meaningful connections. With your support, we can expand access to these programs, remove financial barriers to participation, and ensure that every student has the opportunity to experience the transformative power of dance.

OUR ARTS EDUCATION PROGRAMS

1-2-3, MOVE WITH ME

A school-based program for elementary students that uses dance and creative movement to reinforce academic learning and support social-emotional growth through age-appropriate, engaging lessons.

DANCE & CULTURE: LECTURE DEMONSTRATION SERIES

Interactive presentations that explore the dance practice, history, and cultural traditions of diverse communities. Each program includes a multimedia presentation, live performance of choreography, and a participatory dance class.

INSIDE THE PROCESS

Brings professional artists into schools to share the creative and production process behind making a dance. Students learn about choreography, staging, lighting, music, and other elements through discussions, demonstrations, and movement-based exploration.

BACKSTAGE PASS

Takes students beyond the classroom and into the theater through live performances, rehearsals, and behind-the-scenes experiences, providing exposure to the professional dance world.
